4. Cellular phones and any unauthorized materials are **not** allowed in the examination room.
5. Write your **Examination Number** on every page of your answer booklet(s).

1. The relationship between population growth and development always brings double impacts to the community. Support this argument by giving four (4) points in each side.
2. “Tanzania like other developing countries aims at achieving high level of social and economic development through population planning.” Validate this statement with five (5) points.
3. Shifting cultivation is a farming system practiced in Tanzania mostly for subsistence. But why this system is strongly discouraged by the government and environmentalists in modern times? Provide six (6) points.
4. Despite having many honeypots in Namibia still tourism industry is contributing low percent in Gross Domestic Product (GDP) of the country. Comment on this statement with eight (8) points.
5. “Fish farming is one among the important subsectors of the economy in Tanzania.” Substantiate this contention with six (6) points.
6. In Africa a major source of energy and power supply is obtained primarily from Hydroelectric Power (H.E.P), but this source is facing a number of challenges which lead to the shortage of energy and power supply. Suggest any six (6) ways that can be employed to minimize this problem.
7. Apart from a great role played by manufacturing industries in East African countries, there are general effects of industrial pollutants on the health of employees and community living around. What should be done to address this problem? Give eight (8) points.
